# Our Core Services

## Product Sourcing & Supplier Selection

We identify and partner with the most suitable manufacturing units based on the specific requirements of your order. Our extensive network allows us to source high-quality raw materials, fabrics, and trims at the most competitive market prices.

## Merchandising & Production Management

Our experienced merchandising team acts as the primary point of contact between the buyer and the factory. We manage the entire production calendar, ensuring that samples are approved, materials are ready, and production lines are running on schedule.

## Design & Product Development

We stay ahead of global fashion trends. Our team assists clients in developing new styles, creating tech packs, and producing prototypes. We offer customized solutions to transform your creative vision into a market-ready garment.

## Rigorous Quality Assurance (QA)

Quality is our signature. Our QA professionals conduct systematic inspections at four critical stages:

### Sampling Check

Excellence verified at every sample stage

### Pre-production Check:

Ensuring all raw materials meet specifications.

### Initial Production Check (IPC):

Monitoring the first output of the lines.

### In Line Inspection

Identifying and correcting any deviations mid-process.

### Pre-final Inspection

Ensuring perfection quality before final inspection

### Final Random Inspection (FRI):

A strict final audit before the goods leave the factory.

## Compliance & Ethical Auditing

We ensure that every factory in our chain adheres to international labor laws and safety standards. We conduct regular audits regarding building safety, worker rights, and environmental impact to protect your brand's integrity.

## Logistics & Documentation Support

Our logistics team handles the complexities of international shipping and documentation. From coordinating with freight forwarders to ensuring all export paperwork is accurate, we guarantee a smooth transition from the factory floor to your warehouse.
